About the event

AgroSpectrum Technovate 2025 is a premier summit dedicated to exploring the intersection of agriculture and technology. The event aims to bring together industry leaders, innovators, researchers, policymakers, industry experts and academia to discuss and showcase the latest advancements in agritech. With a focus on sustainable practices and cutting-edge technologies, the conference will address the challenges and opportunities facing the agricultural sector in the 21st century.

Objectives

- To provide a platform for knowledge exchange and collaboration in agritech
- To showcase innovative technologies and practices that can transform agriculture
- To foster partnerships and networking among stakeholders in the agritech ecosystem
- To address the current challenges in agriculture and explore sustainable solutions

Conference Topics

Smart Farming and Precision Agriculture

Sustainable Farming & Climate Innovations

Agri-Fintech, Supply Chain, & Market Innovations

Robotics and Automation in Farming

Biotech in Farming

IoT and AI in Agriculture
